## FRC Scout

# FRC Scout Paper Prototype

The following pages have been created using Balsamiq Mockups. The pages have been linked in a way such that tabs, buttons and hyperlinks that are shaded red are clickable and will redirect to the appropriate page upon being clicked.

This mockup shows the perspective of a user with the administrator user role. Administrators are permitted to view, add, modify and delete all data in the system.

To begin, click the Start button

25	200	80
103	187	70
341	184	62
365	175	73
11	155	70
1279	159	62

This tab shows general data for an event selected by the combo-box. Selecting a new event and clicking the 'Go' button re-populates the table and charts with data related to the newly selected event.

The chart shows points scored by each team in the event, so the user can visually compare the performance of one team versus another.

Any of the other tabs can be clicked to show different views of the data

## Match 11

Data recorded by Scout1

Event Name: Regionals

Team Number: 15

Alliance Color: Blue

### Autonomous

Shots scored in each goal

Top: 3

Middle: 1

Bottom: 0

### Teleoperated

Shots scored in each goal

Top: 3

Middle: 1

Bottom: 0

Pyramid 5

### End Game

What level did the robot reach? 2

### Post Match

Robot play style: Offensive

How confident would you be to select this robot as an alliance partner? 2/5

How well does the team pick up discs? 4/5

Did the robot commit any penalties?

☐ Foul☒ Technical Foul

Comments: The robot got stuck in a corner in autonomous mode

[Return](#)

This page displays the full match record data recorded by a scout. The return button redirects the user to the previous page they were on.

For the purposes of this demonstration, the return button returns to the View Match tab on the Group by Event tab.

## Team 25

[Team Search](#)

Match	Auton Pts	Teleop Pts	Climb Pts	Total
1	18	12	10	40
22	12	24	30	66
31	0	2	10	12

[View Match Record](#)

This tab displays data on a particular team's performance at the selected event. The team can be selected by typing the team number into the search box.

The match record can be viewed by selecting a match from the table and clicking the 'View Match Record' button.

For the purposes of this demonstration, the button has been disabled.

The line chart shows the points scored by a team over their different matches at an event.

The pie chart shows a total of autonomous points, teleoperated points, and climb points scored at the event

2	12	24	30	66
3	0	2	10	12
Overall	10	15	16	39

Profile Picture

Upload New Picture

Radar Chart

The Group by Team tab displays data recorded about a selected team. The team can be change by selecting a team from the combo-box and clicking 'Go'. Doing so will repopulate content on the page with data about the selected team.

The profile picture on this page can be changed by clicking the 'Upload New Picture' button. The newly uploaded picture will replace the previous picture on the page.

The line chart will show total points scored by the team at each event, so the user can view a team's progress over time.

The radar chart will show the averages of autonomous points, teleoperated points and climb points scored so the user can visualize where the team's strengths and weaknesses for point scoring are.

### My Data

[Add](#) [Edit](#) [Delete](#)

Event	Team	Match	Scout
Regionals	35	2	Scout1
Regionals	33	12	Scout1
Nationals	33	5	Scout2

This page allows a scout to manage data that he has entered into the system. The administrator can manage data that has been entered by all other scouts and administrators.

Data can be added by clicking the add button. Data can be modified and deleted by selecting an existing entry from the list and clicking the edit or delete button.

This page allows a scout or administrator to enter a match record into the system. There is a form field for each datapoint being collected for the match.

This page features a canvas containing a picture of the arena, allowing the user to draw the path the robot took during the autonomous round.

The user can add a team to the system by clicking the '+' button located next to the team combo-box. For the purposes of this demonstration, the button has been disabled.
